(c) Copy of a letter written to the Amildar, Bowringpet, to-day.

2. The export of controlled commodities such as Horse Gram without our knowledge has to be prevented. The present papers show that it is quite possible for the controlled commodities first to go by rail to the Civil and Military Station, Bangalore on the ground that it is within the State and then go from the Civil and Military Station to any place outside the State. Because we may have no further control in the Civil and Military station. It is a serious danger which has to be immediately prevented.
